FURNITURE FITTINGS

Our high-quality furniture fittings are the hallmark of woodworking that combines durability with elegance. These fittings, designed to offer both functionality and aesthetic appeal, are made from premium quality materials that ensure longevity and resilience. Whether it's the smooth operation of a drawer slide, the solid feel of a cabinet hinge, or the robust support of a catcher, each component is meticulously engineered for superior performance.

As a result, furniture adorned with these high-quality fittings not only stands the test of time but also enhances the overall design, making every piece a testament to enduring style and reliability.

90 Degree Auto Hinges

Type : Blind Corner

Code : 27171

MRP : ₹ 265 /set

It is designed specifically for panels that have blind corners, providing a seamless solution for your cabinet needs. It comes with a max opening angle of 105°. Max recommended shutter size for a pair of 2 hinges is 850 mm x 550 mm with shutter thickness of 16 mm to 19 mm. The blind corner cabinet hinge's wide opening angle allows for convenient storage inside the cabinet while the nickel plating provides a superior corrosion resistance, ensuring durability and long life.

135 Degree Auto Hinges

Type : Pie Cut

Code : 27172

MRP : ₹ 195 / set

Pie Cut Cabinet Hinges are uniquely crafted to improve the usability of your cabinets. Featuring an easy mounting plate, these hinges are designed for simple installation. Their nickel-plated finish provides excellent corrosion resistance, contributing to the durability and longevity. With a cup diameter of 35 mm & depth of 11.5 mm, these hinges can support a maximum shutter size of 850mm x 550mm, guaranteeing that your cabinet doors stay aligned and secure.

165 Degree Auto Hinges

Soft Close
Now Available

Type : Normal Corner

Code : 27174

Kitchen Fittings

The Slide In bi-fold lift system is perfect for high wall cabinets with a two-part door and a large front, keeping the handle within easy reach. Installation is straightforward, and its operation is seamless. The system smoothly lifts doors, whether heavy or light, and an adjustable stop guarantees the door stays exactly where you want it. Integrated soft-close dampers quietly and gently pull the door closed as it shuts, avoiding any slamming.

SLIDE IN SCREWS

Slide In screws are crafted from robust materials, featuring a corrosion-resistant coating to withstand the test of time even in moisture-rich environments. The design of their threads is optimized to grip tightly into wood fibers without causing splitting. Their sharp points allow for easy starting, saving time and reducing the risk of wood damage. These woodworking screws ensure your furniture is not only built to last but also to impress.
